

CIE2023 30TH SESSION
Ljubljana, Slovenia

Opportunities for Exhibition & Sponsorship

Welcome to Ljubljana, European Green Capital 2016!

Next year Ljubljana is going to be the proud host city of the 30th Quadrennial Session of the CIE. We are convinced that the proven professionalism of our partners, team work and our proverbial hospitality will together create a special and positive experience both for the organizers and the participants of the conference.

In the most recent period Ljubljana has experienced tremendous development as it was laid out in 2007 in our Vision 2025. In it we have embarked on the path towards sustainable development where protection of our environment in all aspects of life is part of our daily urban reality. The best acknowledgement received for our work is the prestigious title **European Green Capital 2016**, the highest recognition of the European Commission in the field which we are very proud of. In its explanatory statement the jury highlighted that we have made greatest improvements in the shortest period of time. We are also the only city in Central and South-East Europe to receive this title.

Congress services in Ljubljana are also developing according to the principles of sustainability. The proof that we are on the right path are awards and recognitions for our work beyond our borders where we are often referred to as an example of good practice. In recent years Ljubljana has been gaining recognition and respect in the international community, among other, we have received the highest recognition in the world for sustainability in the travel and tourism industry, namely **Tourism for Tomorrow** awarded by the international organisation **World Travel & Tourism Council (WTTC)**.

You are always welcome in Ljubljana, so we wish you all the best and invite you to our city!

Zoran Janković

Mayor, Ljubljana

PROMOTION AT CIE 2023

The CIE provides the largest network of countries and world's largest forum for sharing the latest in technological developments in the industries that use optical radiation including the lighting industry, for developing international standards that guide the development and use of equipment and systems, and for educating members of the industry and the general public. Members of the CIE are leaders in this field, and they — and their employers — derive substantial benefits from involvement with this unique and long standing organization.

THE MISSION OF THE CIE

The CIE, concerns itself with the understanding of optical radiation, lighting and image technology, and in building a bridge between research and application. Deep scientific knowledge and an international community of experts, users and industry come together to make the CIE the international authority across its scope.

WHY BECOME AN EXHIBITOR OR SPONSOR?

As an exhibitor and/or sponsor, you have the opportunity to market your company, its capabilities and innovations, to an international audience of those involved in the research, development and application of lighting technologies. These include experts from academia and research professionals, to utility practitioners who are developing and applying lighting solutions around the world.

Depending on the opportunity you take, you will be given complimentary advertising space, and display of your logo in various publications and around the conference venue.

Having an exhibitor's stand with your company information has many advantages. It will be located in the coffee break area, and will ensure a good flow of traffic. You get the chance to demonstrate your products and have opportunities to interact with many technical experts including students.

WHO PARTICIPATES?

Sponsorship of the 30th Quadrennial Session of

the CIE will provide your organization with the opportunity to influence decision makers both in Slovenia and across the world.

It will provide your organization with the opportunity to showcase your products or services to an international audience and potential sales.

Your presence at CIE 2023 will demonstrate commitment and support for innovative lighting technologies. Your company logo will be displayed and acknowledged throughout the 30th Quadrennial Session of the CIE.

Your company will be recognized and promoted on the conference website pages, in the conference program, and in some associated papers and brochures, as well as post conference publications.

Early subscription to one or more opportunities here will maximize publicity of your company during the planning process leading up to CIE 2023.

Sponsorships may be tax deductible in some countries.
